Agregue un conector extra de alimentación SATA para la alimentación del PC

El cable divisor de alimentación SATA (15 cm), modelo PYO2LSATA, incluye un conector SATA de 15 pines que se enchufa a un único conector SATA de alimentación de un ordenador y se divide en dos receptáculos SATA de 15 pines con cierre, lo cual permite conectar dos discos duros Serial ATA a una sola toma de conexión de alimentación SATA del sistema de alimentación del ordenador. Los conectores de alimentación SATA con cierre garantizan una conexión segura con los discos duros, lo cual evita desconexiones accidentales, además de que la división del adaptador en Y evita tener que gastar en la actualización a un sistema de alimentación que permita la conexión de un disco duro SATA adicional.
